

**BUTTE CREEK WATERSHED PROJECT**  

---

**EXISTING CONDITIONS REPORT**

Prepared For:  
**Butte Creek Watershed Conservancy**

Prepared By:  
**Butte Creek Watershed Project  
California State University, Chico**

August 1998

# TABLE OF CONTENTS

<i>ACKNOWLEDGEMENTS</i> .....	<i>i</i>
INTRODUCTION.....	1
Executive Summary .....	1
General Stakeholder & Watershed Advisory Committee Process .....	2
Existing Conditions Report.....	2
Geographic Information System (GIS).....	3
Education Program.....	4
Watershed Management Strategy.....	5
PHYSICAL CONDITIONS OF THE WATERSHED .....	6
1. Location and Overview of the Area.....	6
Butte Meadows .....	6
Butte Creek Canyon .....	7
Valley Section.....	7
Butte Basin .....	7
2. Geology, Basin Morphology, and Hydrologic System .....	9
Introduction .....	9
Butte Meadows .....	9
Upper Butte Creek Canyon.....	10
Middle Butte Creek Canyon .....	11
Lower Butte Creek Canyon .....	12
Valley Section and Butte Basin .....	13
Stream Flows .....	20
Data Gaps .....	23
3. Fluvial Geomorphology .....	25
Introduction .....	25
Flow Regime.....	25
Channel Morphology.....	26
Channel Stability.....	27
Erosion and Sedimentation .....	28
Problem Areas .....	28
4. Water Supply and Service Areas of Water Suppliers .....	29
Historical Background.....	29
Water Suppliers .....	29
Groundwater .....	35
5. Water Quality .....	39
Introduction .....	39
Water Quality Goals.....	39
Sources of Water Quality Monitoring Information .....	39
Water Quality Monitoring .....	39
Analysis of Historic Monitoring and Water Quality Data .....	41
Current Sampling Methods.....	43
Monitored Water Quality Parameters.....	43

Ground Water Quality Concerns.....	51
Data Gaps .....	53
Future Monitoring of Water Quality Parameters .....	57
6. Ecology.....	57
Plant Communities and Distributions.....	57
Valley Communities.....	57
Foothill and Montane Communities.....	60
Sensitive Botanical Resources .....	63
Management Concerns.....	65
Wildlife In The Butte Creek Watershed.....	68
Wildlife Values of Past Riparian and Fresh-Water Marsh Habitats .....	68
Current Status of Special Status Wildlife Populations .....	69
Threats by Exotic Species.....	74
Management Concerns.....	79
Fisheries And Aquatic Resources.....	80
A Brief Historic Perspective.....	80
Hydraulic Mining Impacts.....	81
Historic Wetlands .....	81
Stream Habitat Conditions.....	82
Fishes of Butte Creek.....	84
Aquatic Insects-Fish Food .....	85
Salmon Life Histories.....	86
Habitat Requirements of Salmonids.....	89
Special Status Fish .....	102
Effects of Channel Stabilization .....	103
Large Woody Debris for Restoration .....	103
Butte Creek Fisheries Stressors.....	103
Recreational impacts .....	104
Potential Improvement Due To Screening.....	106
Historic Context for Butte Creek .....	107
7. Current Land Uses and Land Management.....	109
Land Ownership and Land Uses .....	109
Land Use Policies.....	111
8. Historical Uses and Cultural Resources .....	132
Prehistory.....	132
Historical Land Use.....	134
9. Fire History and Management.....	153
Situation .....	153
Results .....	155
Conclusions .....	160
10. Scenic and Recreation Resources .....	161
Introduction .....	161
Related Studies .....	161
General Overview of Land Uses and Land Ownership .....	162
Overview of Recreation Opportunities.....	162
Dispersed Recreation Use.....	165
Recreation Opportunities Matrixes .....	166
Tubing and Whitewater Paddlesports.....	168
Visual Resources - Viewsheds.....	172

Issues and Concerns Regarding Recreation.....	176
Conclusions .....	177
11. Existing Resource Protection Measures.....	178
Resource Protection Measures.....	178
Stream Project Permitting in California .....	178
Conservation Organizations.....	194
SUMMARY OF ISSUES AS RELATED TO EXISTING CONDITIONS.....	198
Introduction .....	198
Top Ten Issues and Concerns .....	199
LIST OF PREPARERS .....	211
GLOSSARY .....	229
LIST OF ABBREVIATIONS.....	237
APPENDICES	
Appendix A:	Memorandum of Understanding
Appendix B:	DWR Butte Creek Watermaster Service Area
Appendix C:	Water Rights in DWR Butte Creek Watermaster Service Area
Appendix D:	Description of Data Sources and Table Layout for the Butte Creek Watershed Diversions and Imports Map; Diversions Map: Inflow and Outflows
Appendix E:	Surface Water Gauging Stations and Butte Creek Peak Annual Flows Graph
Appendix F:	Summary of Reports and Documents Pertaining to Butte Creek’s Water Quality, Hydrology, and Diversions (Annotated Bibliography)
Appendix G:	Case Study: Natural Resources Conservation Service, Emergency Watershed Protection Project – Phase II (Parrott-Phelan Irrigation Diversion)
Appendix H:	Groundwater Level Monitoring Wells and State Well Numbering System
Appendix I:	DWR Water Quality Goals
Appendix J:	Botanical Resources of the Butte Creek Watershed
Appendix K:	Weeds Reported in the Butte Creek Watershed
Appendix L:	Special Status Wildlife Known or with Potential to Occur in the Butte Creek Watershed
Appendix M:	Descriptions of Fish Species that Occur in the Butte Creek Watershed
Appendix N:	Range Allotment Management Strategies
Appendix O:	Butte Creek Watershed Recreational Opportunities Matrix (Facilities)
Appendix P:	Butte Creek Watershed Recreational Opportunities Matrix (Activities)

MAP APPENDICES

## LIST OF FIGURES

<b>Figure</b>	<b>Title</b>	<b>Page</b>
4.1	Service Boundaries of Waters and Irrigation Districts.....	31
4.2	Butte Basin Water Supply Flow Diagram.....	32
6.1	How Fish Species Locate Themselves in a Typical Pool.....	82
6.2	How Wood and Vegetation Provide Quiet Water Refuges .....	83
6.3	Leaping Ability of Salmon Under Various Conditions.....	90
6.4	Percent of Emergence of Fry from Fertile Eggs in Gravel Sand Mixture.....	95
8.1	Map Showing Location of Maidu.....	133
8.2	Map Showing Mining Camps and Cultural Centers .....	138
8.3	Map Showing Mines in Watershed, circa 1945.....	139
8.4	Map Showing Ditch System Bought by Eugene deSabra.....	143
8.5	Inventory Map of Centerville Powerhouse.....	144
8.6	Inventory Map of DeSabra Powerhouse.....	145
8.7	Map Showing Renovated Ditch Network for DeSabra-Centerville System.....	147

# LIST OF TABLES

Table	Title	Page
2.1	General Statistics for Butte Creek near Chico, CA; USGS .....	21
2.2	Summary Statistics of Mean Monthly Data: Butte Creek near Chico, CA .....	21
2.3	Average Monthly Rainfall for Chico Experimental Station Period of Record: 1870-1989 .....	22
2.4	Average Monthly Rainfall for Centerville Powerhouse Period of Record: 1931-1971 .....	22
2.5	Average Monthly Rainfall for Paradise Period of Record: 1957-1995 .....	22
2.6	Average Monthly Rainfall for De Sabla Period of Record: 1931-1995 .....	22
2.7	Average Monthly Rainfall for Stirling City Period of Record: 1939-1966 .....	22
3.1	Recurrence Intervals for Butte Creek at USGS stream gauge #11390000 .....	26
4.1	Available Information for Water and Irrigation Districts .....	33
4.2	Well Density by Township .....	38
5.1	Water Quality Monitoring Stations .....	42
5.3	Chronic and Acute Exposure to Cadmium .....	50
5.4	Chronic and Acute Exposure to Lead .....	50
5.5	Ground Water Quality Stations Upper Butte Creek Watershed .....	54
5.6	Tests for Trace Elements .....	55
6.1	The Fishes of Butte Creek .....	84
6.2	Estimates of spawning spring-run Chinook salmon in Butte Creek, 1956-1997 .....	86
6.3	Optimum Temperatures for Anadromous Salmonids .....	89
6.4	Summary of Embeddedness .....	93
6.5	Juvenile Chinook Densities in Different Woody Habitat Types .....	98
6.6	Restoration Projects from Revised Draft Anadromous Fish Restoration Program 1998 .....	107
7.1	Current Land Uses by Area .....	110
7.2	Eleven Largest Private Property Owners .....	111
7.3	Public Landowners .....	111
7.4	Management Area 43 - Lomo .....	123
7.5	Areas of Prescription Types .....	125
7.6	Wildlife Habitat Allocation for Management Area 43 .....	125

7.7	Desired State for Diversity for Management Area 43.....	125
7.8	USFS Range Allotment Strategies for Management Area 43 .....	125
7.9	USFS Management Area 44- Jonesville.....	127
7.10	USFS Prescription Allocation for Management Area 44 .....	127
7.11	USFS Wildlife Habitat Allocations.....	127
7.12	USFS Desired State for Diversity .....	127
7.13	USFS Range Allotment Strategies .....	128
8.1	Total Maidu Population.....	135

## *Acknowledgements*

*The Butte Creek Watershed Project wishes to thank the funding agencies who made this project possible. Through the generosity of the United States Fish and Wildlife Service (USFWS), the National Fish and Wildlife Foundation, and CALFED Category III we were able to produce the document in hand. The CSUC University Foundation Office of Sponsored Projects deserves recognition for their administrative oversight of the funding for this project.*

*We would also like to acknowledge the past and present members of the Butte Creek Watershed Conservancy Board of Directors for their interest in and contributions to this project.*

*Recognition also goes to the members of our Technical Advisory Committee for the expertise they shared in the creation of this document: Jack Bean of Sierra Pacific Industries; Dave Brown, CSU, Chico Watershed Hydrologist; Rich Holman, CSU, Chico Department of Construction Management; Jim Bundy, PG&E; Craig Carter, CDF and Butte County Fire Department; Stacy Cepello, DWR; Ron Dykstra, RWQCB; Steve Felte, Paradise Irrigation District; Jeff Harter, Butte County Fire Department; Dennis Heiman, RWQCB; John Icanberry, USFWS; Michael Kossow and Ken Cawley, Meadowbrook Conservation Associates; Michael Madden, Butte County Office of Emergency Services; Vicki Newlin, Butte County Water Commission; Doug Straw, RWQCB; Will Bishop, DFG; Gayland Taylor, DFG; Paul Ward, DFG; and Lisa Weber, RD #1004.*

*We are especially indebted to the members of the Butte Creek Watershed Advisory Committee, who spent many hours reviewing and responding to initial drafts of this document. Their careful reading of the drafts, patience with the process, and avid commitment to the health and future of the Butte Creek Watershed have made the production of this document truly a community effort.*
